Code of Federal Regulations

Status Codes

The CNPS R-E-D Code

R (Rarity)

1 Rare, but found in sufficient numbers and distributed widely enough that the potential for extinction or extirpation is low at this time

2 Distributed in a limited number of occurrences, occasionally more if each occurrence is small

3 Distributed in one to several highly restricted occurrences, or present in such small numbers that it is seldom reported

E (Endangerment)

1 Not endangered

2 Endangered in a portion of its range

3 Endangered throughout its range

D (Distribution)

1 More or less widespread outside California

2 Rare outside California

3 Endemic to California

California State Codes

CE State-listed, endangered

CT State-listed, threatened

CR State-listed, rare

CC Candidate for State listing

CEQA California Environmental Quality Act: these plants have no state or federal standing, but CEQA consideration is mandatory on nonfederal lands (lists 1 and 2)

CEQA? CEQA consideration recommended (lists 3 and 4)

Federal Codes

FE Federally-listed, endangered

FT Federally-listed, threatened

PE Federally-proposed, endangered

PT Federally-proposed, threatened

C1 Enough data are on file to support federal listing

C3a Extinct

C3b Taxonomically invalid

C3c Too widespread and/or not threatened
